

JOINT SOLUTION

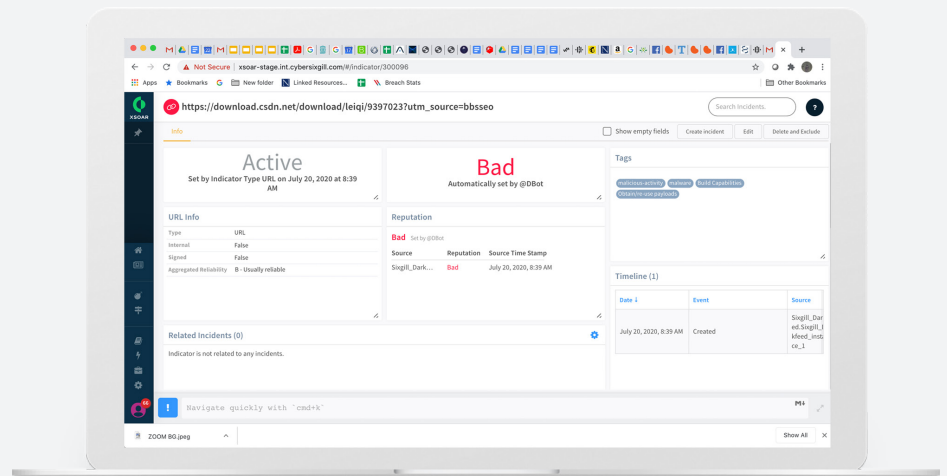

Darkfeed Content Pack: Early threat warning and more

Darkfeed + **CORTEX™
XSOAR**
BY PALO ALTO NETWORKS

Supercharge your SOC capabilities with all that darkfeed has to offer with darkfeed's content pack, consisting of:

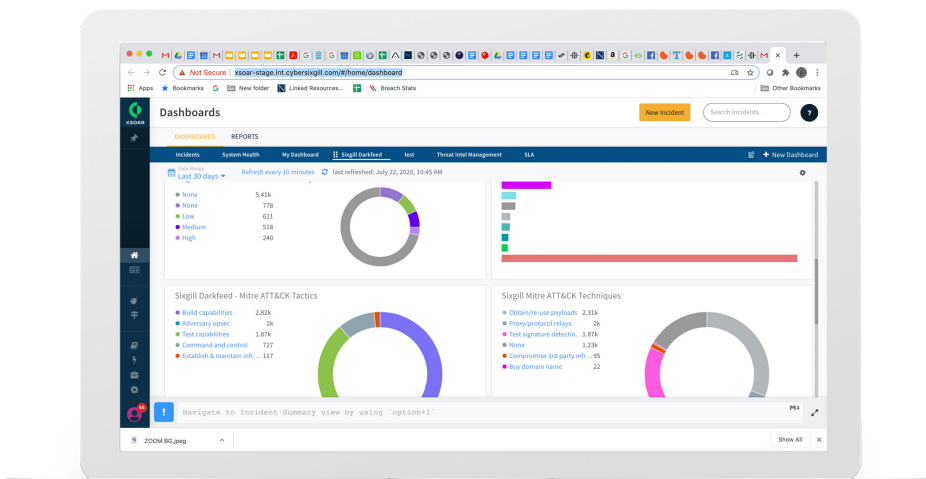

DARKFEED:

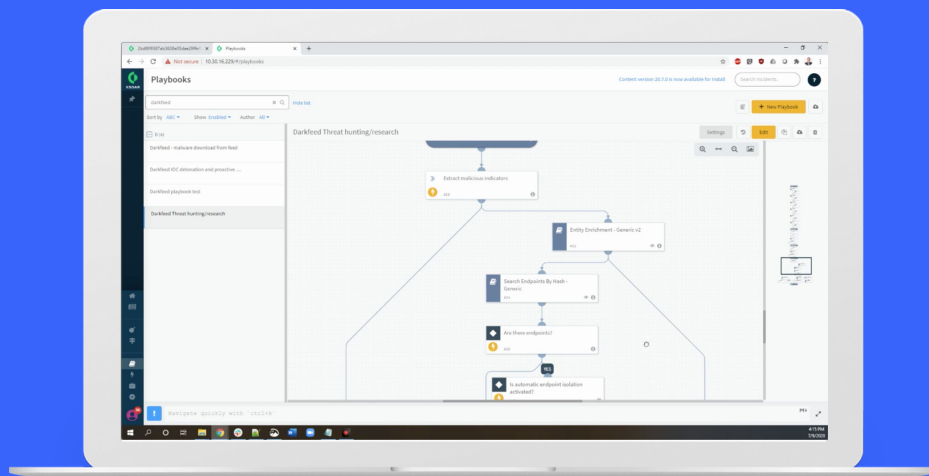

Detect threats before they reach your environment.

DASHBOARD:

All you need in a single pane of glass: Gain insight around evolving threats from Darkfeed's underground sources.

PLAYBOOKS:

Trigger the right playbooks to tackle complex use-cases such as zero-day malware and threat-hunting.

Visit Cortex XSOAR Marketplace to try Darkfeed

Cortex XSOAR is an extended security orchestration, automation and response platform that unifies case management, automation, real-time collaboration and threat intel management to transform every stage of the incident lifecycle. Teams can manage alerts across all sources, standardize processes with playbooks, take action threat intel and automate response for any security use case - resulting in significantly faster responses that require less manual review.

Sixgill is a fully automated cyber threat intelligence solution suite that helps organizations protect their critical assets, reduce fraud and data breaches, protect their brand and ultimately minimize attack surface. The platform empowers security teams with contextual and actionable insights as well as the ability to conduct real-time investigations. Rich intelligence streams such as Darkfeed harness Sixgill's unmatched intelligence collection capabilities and deliver real-time intel into organizations' existing security systems to help proactively block threats. Current customers include enterprises, financial services, MSSPs, governments and law enforcement entities.
